The amounts shown above represent the per-share income and capital gain distributions as of December 23, 2021. The amounts are also computed as a percentage of NAV as of December 22, 2021.

*Distributions from net income are declared and paid monthly. If required, any additional net investment dividend will be declared and paid with the Fund's December net investment income dividend.

All mutual funds, regardless of performance, must distribute to shareholders any net realized gains from the sale of portfolio investments. Generally speaking, market appreciation increases the likelihood that a fund will distribute capital gains. There is also the potential that a fund will pay a capital gain distribution during a year of negative or market neutral performance. Past distributions are not indicative of future trends.

A Fund's closing Net Asset Value (NAV) on the ex-dividend date will be reduced by the amount of the distribution, plus or minus any market activity for the day. Please consult your tax advisor for information specific to your particular situation.

In order to comply with Section 19a-1 of the Investment Company Act of 1940, the AQR Funds are reporting to you the estimated amount of each Fund's current distributions expected to be paid from net investment income, net realized capital gains, and return of capital, if any. Please note that the amounts reported in this notice are estimates. The ultimate composition of the distributions may vary from the estimates due to a variety of factors. The sources of distributions reported in this notice are not being provided for tax reporting purposes. The Funds will send a Form 1099-DIV to applicable shareholders subsequent to year-end that will specify how to report the treatment of the distributions for federal income tax purposes.
