

# AQR Core Plus Bond Fund

## A Systematic Approach to Fixed Income

The goal of the Fund is to provide investors with a broad set of return sources through a consistent and repeatable process across tested investment themes.

### Return Potential

The Fund seeks to consistently outperform the benchmark by systematically implementing fundamental drivers of fixed income returns such as Value, Momentum, Carry, and Defensive themes.

### True Diversification

The Fund seeks excess returns that are uncorrelated to fixed income markets, other fixed income managers, as well as equity markets.

### Risk-Controlled Process

Unlike traditional approaches, this Fund does not take on additional credit or duration risk to achieve its return objectives. Rather, it seeks to maintain a risk level consistent with the benchmark.

## Sources of Excess Return: Core Plus Fixed Income

### Traditional Approach

- Discretionary investment approach based on macro views
- Over reliance on credit risk for excess returns
- Credit risk and equity risk are highly correlated, reducing diversification

### AQR Core Plus Fixed Income

- Consistent and rules based investment approach
- Utilizes both established and proprietary investment themes
- Seeks to preserve the diversification benefit of fixed income

Source: AQR. The “Conventional Approach” and “AQR’s Approach” are for illustrative purposes only and are intended only to illustrate the sources of excess returns of a typical fixed income strategy. These do not represent the actual target allocation of any AQR client account, fund, or strategy, or that of any other advisor. There is no assurance that the Fund’s investment strategy will be successful. The benchmark for The Fund is the Bloomberg Barclays US Aggregate Bond Index

## AQR Core Plus Bond Fund

## Fund Managers

### Fund Objective

Ph.D., University of Michigan

### Jordan Brooks, Ph.D.

Managing Director, AQR  
B.A., Boston College  
Ph.D., M.A., New York University

Past performance is no guarantee of future results. An investment in the Funds involves risk, including loss of principal. The Fund is not suitable for all investors. The Fund is new and has a limited operating history.

Diversification does not eliminate the risk of losses.

Duration measures the sensitivity of the price of the Fund to a change in interest rates

The Bloomberg Barclays US Aggregate Bond Index is a broad-based flagship benchmark that measures the investment grade, US dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, MBS (agency fixed-rate and hybrid ARM pass-throughs), ABS and CMBS (agency and non-agency).

Carry is the tendency for higher yielding assets to underperform lower yielding assets.

An investment in the Fund is subject to risks, including the possibility that the value of the Fund's portfolio holdings may fluctuate in response to events specific to the companies in which the Fund invests, as well as economic, political or social events in the United States or abroad. Please refer to the prospectus for complete information regarding all risks associated with the Funds.

An investor considering the funds should be able to tolerate potentially wide price fluctuations. The Fund is subject to high portfolio turnover risk as a result of frequent trading, and thus will incur a higher level of brokerage fees and commissions, and may cause a higher level of tax liability to shareholders in the Fund. Since the Fund may also attempt to increase its income or total return through the use of securities lending, it may be subject to the possibility of additional loss as a result of this investment technique.

**An investor should consider the investment objectives, risks, charges and expenses of the Fund carefully before investing. To obtain a Prospectus or summary prospectus containing this and other information, please call 1-866-290-2688 or download the file from [www.aqrfunds.com](http://www.aqrfunds.com). Read the Prospectus or summary prospectus carefully before you invest. There is no assurance the stated objective(s) will be met.**
